NOTES

ABOUT DENSO

An OE Heritage

DENSO is one of the world's largest automotive component suppliers with over \$40.2 billion in annual sales. We supply every major auto manufacturer in the world, providing them with the quality and innovation they need to remain on the leading edge of automotive technology. In addition to our automotive customers, we also supply components to virtually all OE manufacturers worldwide. For decades we have helped all of our customers to become giants in their industries.

Unsurpassed Quality

At DENSO we know that one of the major keys to success for our company and our customers is an unwavering commitment to quality. We strive for, and achieve, zero defects for parts manufactured in the millions in DENSO facilities that are ISO9000 and ISO14000 certified. This dedication to quality is clearly recognized by the industry as DENSO has received such prestigious awards as the Deming Award for Quality, the J.D. Power and Associates Chairman's Award and numerous supplier awards for quality from companies like Toyota, Lexus, General Motors and Chrysler.

Bringing It All To The Aftermarket

In the 1980s, DENSO became the first to mass-produce the platinum spark plug and offer it in the aftermarket. A decade later we introduced the world's most advanced spark plug, Iridium Power®, which revolutionized the concept of the aftermarket performance plug. By the late 1990s, the world watched with great interest as DENSO unveiled a line of OE-standard premium replacement components

under the First Time Fit® brand. Today, the First Time Fit line of products includes A/C compressors, cabin air filters, condensers, evaporators, radiators, receiver driers, expansion devices, starters, alternators, oxygen sensors, fuel pumps, oil and air filters, ignition wire sets, tire pressure monitoring system sensors, engine management sensors and wiper blades.

DENSO is one of the world's largest automotive component suppliers with over \$40.2 billion in annual sales.

Better By Design

As you can see, we've spent decades perfecting our craft — a claim few automotive component manufacturers can make. Clearly the DENSO commitment to quality, innovation, and advanced technology is the reason our automotive and heavy-duty components truly are better by design.

DENSO FIRST TIME FIT® WIPER BLADES THAT PERFORM & PROTECT TO MEET YOUR CUSTOMERS' NEEDS

No Competitor Has Designed or Built Blades as Innovative as DENSO Wiper Blades

DENSO First Time Fit® conventional, designer and beam wiper blades are manufactured and tested to the strictest OE standards for unparalleled performance.

Each wiper blade features an innovative construction resulting in durability, superior performance and exact replacement. These are just a few reasons DENSO is a major supplier of wiper blades to many OE manufacturers worldwide.

WHO DENSO SUPPLIES:

ChryslerDodgeGMHondaHyundaiMazdaSuzukiToyota

WHY DENSO FIRST TIME FIT® WIPER BLADES ARE SUPERIOR?

- OEM design and spec for ideal fit and function
- Durable design

Quick and easy installation

• Quiet, streak-free performance

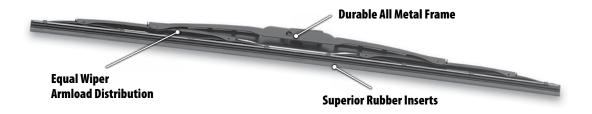

Superior Rubber Cutting Process: Other vendors use Guillotine cut blades which chatter and leave streaks. Our wiper blade contact edge is formed using a twin blade cutting process, providing two precise 90 degree wiping edges - leaving a clean wiping edge and no streaks or chatter.

Unique Low Profile OEM Design: DENSO First Time Fit® wiper blades are designed with the elimination of secondary levers, which reduces the height of the blade making it sit low on the windshield. This low profile design results in less resistance to wind.

Graphite Coated Rubber and the Plastic Cover: Our graphite coated rubber provides improved durability for longer lasting blade life. Our cover provides a sleek & aerodynamic appearance of the blade, as well as a design that protects against wind lift.

- First in the market with this unique hybrid design
- Sizes available from 14" 28"

CONVENTIONAL WIPER BLADE – No Streaks or Chatter

Superior Rubber Cutting Process: Other vendors use Guillotine cut blades which chatter and leave streaks. Our wiper blade contact edge is formed using a twin blade cutting process, providing two precise 90 degree wiping edges - leaving a clean wiping edge and no streaks or chatter.

Contact Points: DENSO First Time Fit® wiper blades have equal wiper armload distribution which creates consistent, streak-free wiping on any windshield.

High Compression Natural Rubber Insert: Our wiper blades have compression formed natural rubber which protects and endures against the elements, such as, exposure to light and moisture—better than competitor synthetic rubber blades.

• Sizes available from 12" - 28"

BEAM WIPER BLADE – New Standard in Performance

Revolutionary Wiping Technology: DENSO First Time Fit® wiper blades provide continuous pressure with 1,500 + pressure points on your windshield -- making this the best wiper blade technology available.

Advanced Rubber Technology: Our wiper blades are designed with advanced rubber compounds, such as, natural rubber wiping edge, synthetic rubber body and a protective coating making this blade the most durable against weather.

Integrated Anti-Windlift Spoiler: Our wiper blades have optimal contact – wind pressure forced.

• Sizes available from 15" - 28"

DENSO First Time Fit® wiper blades provide the ultimate in performance and are the clear choice for OE replacement. Their rugged construction and weather-defying performance make them a dramatic upgrade from any other aftermarket blade.

REAR WIPER BLADES

Features & Benefits:

- OE-style blade for a perfect fit on your vehicle
- Low-profile insert improves contact on windshield, reducing the chance of streaks
- Graphite-coated rubber for longer lasting blade life
- Durable resin blade lightweight blade that conforms to the vehicle wiper arm

△CAUTION: This product is made of RESIN. Please avoid excessive force and use care when removing and installing.

Removal Instructions

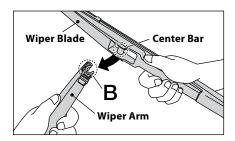

1. Lift wiper arm.

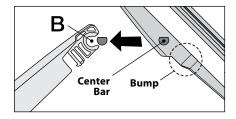

2. Rotate the blade to proper angle to detach the blade. **ACAUTION:** Do not forcibly detach.

Installation Instructions

1. Insert Center bar into tip of Wiper Arm, "B".

- 2. Set the blade so Bump is located in the bottom of Center bar.
- 3. Rotate the blade to proper angle so Center bar can go into "B" smoothly.
- 4. Insert the blade completely, then:
 - a. Rotate the blade as shown.
 - b. Confirm the blade is fixed with wiper arm correctly.

FEATURES & BENEFITS

- EnduroVision Wiper Blades' breakthrough combination of performance and value is unmatched in the marketplace
- Durable Steel Frame with Stainless Steel Backing provides reliable, long lasting performance. Powder coating protects frame from ultra-violet rays and corrosion
- Steel Brackets provide uniform pressure across the windshield preventing chattering and streaks
- Natural Rubber Insert provides a smooth, quiet, and streak-free performance
- Universal Connector available in 9x3 & 9x4 hook, 3/16" & 1/4" pin, and bayonet
- Available in 12–28 inches, EnduroVision wiper blades give you the coverage that allows you to meet your conventional wiper blade needs

À PROPOS DE DENSO

Un héritage OE

DENSO est l'un des plus grands fournisseurs de pièces automobiles au monde, avec plus de 40,2 milliards de dollars de ventes annuelles. Nous fournissons tous les grands fabricants automobiles au monde, en mettant à leur disposition les innovations et la qualité dont ils ont besoin pour conserver une longueur d'avance en matière de technologie automobile. En plus de nos clients du secteur automobile, nous fournissons également des pièces à tous les fabricants OE à travers le monde. Depuis des décennies, nous avons aidé tous nos clients à devenir des géants dans leurs secteurs d'activités.

Qualité inégalée

Chez DENSO, nous savons que l'une des clés majeures de la réussite de notre entreprise et de nos clients est l'engagement sans faille pour la qualité. Nous recherchons et nous obtenons l'objectif « zéro défaut » pour les millions de pièces fabriquées dans les usines DENSO, qui sont certifiées aux normes TS16949, ISO9000 et ISO14000. Ce dévouement pour la qualité est clairement reconnu par l'industrie et se traduit par les prestigieux prix attribués à DENSO tels que le prix Deming Award pour la qualité, le prix J.D. Power and Associates Chairman's Award et plusieurs prix des clients pour la qualité, attribués par des entreprises telles que Toyota, Lexus, General Motors et Chrysler.

La meilleure qualité sur le marché des pièces de rechange

Dans les années 1980, DENSO devint le premier à produire en masse la bougie d'allumage en platine et à l'offrir au marché des pièces de rechange. Une décennie plus tard, nous avons introduit la bougie d'allumage la plus

perfectionnée au monde, Iridium Power®, qui a révolutionné le concept de bougie de performance sur le marché des pièces de rechange. Vers la fin des années 1990, le monde a observé avec un grand intérêt l'innovation par DENSO, par le biais d'une gamme de pièces de remplacement haut de gamme conformes aux normes OE sous la marque First Time Fit®. De nos jours, la gamme de produits First Time Fit comprend des compresseurs de climatisation, des filtres à air d'habitacle, des condenseurs, des évaporateurs, des

DENSO est l'un des plus grands fournisseurs de pièces automobiles au monde, avec plus de 40,2 milliards de dollars de ventes annuelles.

radiateurs, des réservoirs déshydrateurs, des dispositifs d'expansion, des démarreurs, des alternateurs, des capteurs d'oxygène, des pompes à carburant, des filtres à huile et à air, des jeux de câble d'allumage, capteur du système de surveillance de la pression des pneus, capteurs de gestion du moteur et des balais d'essuie-glace.

Supérieurs de par leur conception Comme vous le constatez, au cours des décennies, nous avons perfectionné notre art, ce que peu de fabricants de pièces automobiles peuvent affirmer. L'engagement de DENSO pour la qualité, l'innovation et la technologie avancée, est clairement la raison pour laquelle nos pièces automobiles et nos pièces pour machineries lourdes sont véritablement supérieures de par leur conception.

DES BALAIS D'ESSUIE-GLACE FIRST TIME FIT^{MD} DENSO QUI FONCTIONNENT ET PROTÈGENT POUR RÉPONDRE AUX BESOINS DE VOS CLIENTS

Aucun concurrent n'a conçu ou construit un balai aussi innovant que les balais d'essuie-glace DENSO.

Les balais d'essuie-glace de style traditionnel, de style Designer et de style profilé **First Time Fit^{MD} DENSO** sont fabriqués et testés conformément aux normes OE les plus strictes afin de garantir un niveau de performance inégalé.

Chaque balai d'essuie-glace présente une construction innovante résultant en une durabilité, une performance supérieure et une pièce de rechange exacte. Il ne s'agit là que de quelques-unes des raisons pour lesquelles DENSO est un fournisseur important de balais d'essuie-glace pour plusieurs fabricants OE au monde.

QUI DENSO FOURNIT:

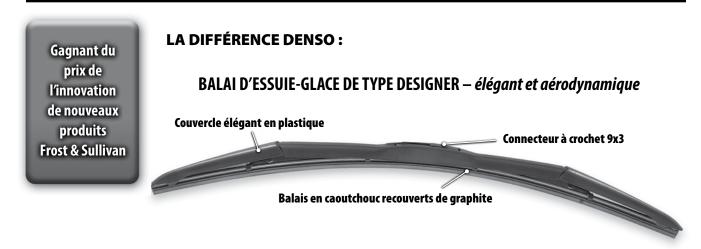

ChryslerDodgeGMHondaHyundaiSuzukiToyota

POURQUOI LES BALAIS D'ESSUIE-GLACE FIRST TIME FITMD DENSO SONT-ILS SUPÉRIEURS?

- Conception et spécifications OEM pour un ajustement et un fonctionnement idéaux
- Conception durable Installation rapide et facile Fonctionnement silencieux et sans traînées

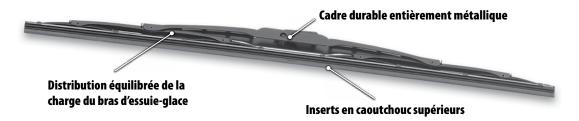

Processus de coupe de caoutchouc de qualité supérieure : Les autres fournisseurs utilisent des balais coupés à la guillotine qui produisent du broutement et laissent des traînées. Notre bord de contact de balai d'essuie-glace est formé à l'aide d'un processus de coupe à deux lames qui fournit deux bords de raclage précis à 90°, laissant un bord de raclage propre et ne produisant pas de broutement ni de traînée.

Conception OEM unique effilée : Les balais d'essuie-glace DENSO First Time Fit[™] sont conçus en vue d'éliminer les leviers secondaires, ce qui réduit la hauteur du balai, qui reste à plat sur le pare-brise. Cette conception à profil plat oppose une faible résistance au vent.

Caoutchouc recouvert de graphite et couvercle en plastique : Notre caoutchouc recouvert de graphite offre une durabilité améliorée pour fournir une durée de vie prolongée au balai. Notre couvercle fournit un aspect élégant et aérodynamique au balai, ainsi qu'une conception qui protège contre le soulèvement par le vent.

- Premier sur le marché disposant de cette conception hybride unique
- Dimensions disponibles entre 30 et 71 cm (14 à 28 po)

BALAI D'ESSUIE-GLACE DE TYPE TRADITIONNEL — aucune traînée et aucun broutement

Processus de coupe de caoutchouc de qualité supérieure : Les autres fournisseurs utilisent des balais coupés à la guillotine qui produisent du broutement et laissent des traînées. Notre bord de contact de balai d'essuie-glace est formé à l'aide d'un processus de coupe à deux lames qui fournit deux bords de raclage précis à 90°, laissant un bord de raclage propre et ne produisant pas de broutement ni de traînée.

Points de contact : Les balais d'essuie-glace First Time Fit^{MD} DENSO offrent une distribution équilibrée de la charge des bras de raclage, ce qui crée un raclage constant et sans traînées sur tout pare-brise.

Insert en caoutchouc naturel à haute compression : Nos balais d'essuie-glace utilisent un caoutchouc naturel formé par compression qui protège et résiste contre les éléments tels que la lumière et l'humidité, mieux que les balais synthétiques des concurrents.

• Dimensions disponibles entre 30 et 71 cm (12 à 28 po)

BALAI D'ESSUIE-GLACE PROFILÉ — nouvelle norme de performance

Technologie d'essuyage révolutionnaire : Les balais d'essuie-glace DENSO First Time Fit[™] fournissent une pression continue grâce à plus de 1 500 points de pression sur votre pare-brise, ce qui en fait la meilleure technologie de balai d'essuie-glace disponible.

Technologie de caoutchouc de pointe : Nos balais d'essuie-glace sont conçus à l'aide de composés de caoutchouc de pointe, tels qu'un bord de raclage en caoutchouc naturel, un corps en caoutchouc synthétique et une couche de protection, ce qui en fait les meilleurs balais en terme de durabilité contre les températures.

Déflecteur de vent intégré : Nos balais d'essuie-glace disposent d'un contact optimal : canalisation de la pression du vent.

• Dimensions disponibles entre 38 et 71 cm (15 à 28 po)

Les balais d'essuie-glace DENSO First Time Fit^{MD} fournissent une performance optimale et représentent un choix judicieux pour le remplacement OE. Par leurs constructions robustes et leurs performances défiant les intempéries, ils constituent, pour tout autre balai du marché des pièces de rechange, une évolution remarquable.

BALAIS D'ESSUIE-GLACE ARRIÈRE

Caractéristiques et avantages :

- Balai de type OE pour un ajustement parfait sur vos voitures
- · L'insert à profil bas améliore le balayage sur le pare-brise, réduisant la probabilité de formation de traces
- Caoutchouc recouvert de graphite pour une durée de vie prolongée au balai
- Balai durable en résine Un balai léger qui s'adapte au bras d'essuie-glace du véhicule

Chez DENSO, vous obtiendrez toujours la bonne pièce avec un ajustement précis . . . dès le premier essai SOYEZ INTRANSIGEANT . . . Exigez les balais d'essuie-glace DENSO First Time Fit.

Instructions d'installation

1. Insérer la barre centrale dans le bout du bras d'essuie-glace, « B ».

- 2. Placer le balai afin que la bosse soit situé sous la barre centrale.
- 3. Tourner le balai à l'angle approprié pour que la barre centrale s'insère dans « B » facilement.
- 4. Insérer le balai complètement, puis :
 - a. Tourner le balai tel qu'illustré.
 - b. Assurez-vous que le balai est fixé correctement au bras d'essuie-glace.

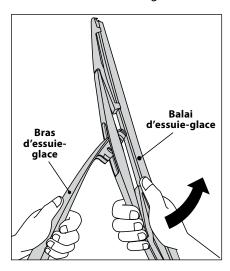

Balais d'essuie-glace arrière - Roc Lock3

AVERTISSEMENT: Ce produit est fait de RÉSINE. Veuillez éviter d'utiliser une force excessive et faites attention lors du retrait et de l'installation.

Instructions de retrait

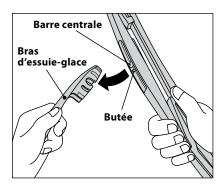

1. Soulever le bras d'essuie-glace.

 Tourner le balai à l'angle approprié pour le détacher. △AVERTISSEMENT: Ne pas forcer le détachement.

Instructions d'installation

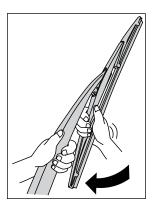

1. Placer le balai afin que la butée soit située sous la barre centrale.

2. Tourner le balai à l'angle approprié pour que la barre centrale s'insère dans « B » facilement. En même temps, insérer la butée dans la rainure « C ».

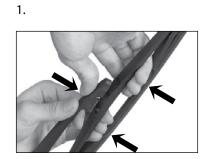

- 3. Insérer le balai complètement, puis :
 - a. Tourner le balai tel qu'illustré.
 - b. Assurez-vous que le balai est fixé correctement au bras d'essuie-glace.

Balais d'essuie-glace arrière - Snap Claw

2.

Balais d'essuie-glace arrière - Slide Pinch

CARACTÉRISTIQUES ET AVANTAGES

- La combinaison de performance et de valeur des balais d'essuie-glaces EnduroVision est inégalée.
- Son cadre en acier durable et son dos en acier inoxydable assurent un fonctionnement fiable et durable. La peinture en poudre protège le cadre contre les rayons ultraviolets et la corrosion.
- Les supports en aciers appliquent une pression uniforme sur l'ensemble du pare-brise, empêchant ainsi les sautillements et les stries.
- Encart en caoutchouc naturel assurant un fonctionnement silencieux et tout en douceur.
- Connecteur universel Comprend les options avec crochet de 9x3 et 9x4, broche 3/16 po (4,76 mm) et 1/4 po (6,35 mm), et baïonnette.
- Offerts en longueur de 12 à 28 po (30,48 à 71,12 cm), les balais d'essuie-glaces EnduroVision répondent à tous vos besoins en matière de balais d'essuie-glace conventionnels.

ACERCA DE DENSO

Un legado de equipos originales (OE, por sus siglas en inglés)

DENSO es uno de los proveedores de componentes de la industria automotriz más grandes a nivel mundial con más de \$40.2 mil millones de ventas anuales. Proveemos a todos los principales fabricantes de automóviles del mundo y les brindamos la calidad e innovación que necesitan para permanecer a la vanguardia de la tecnología automotriz. Además de nuestros clientes de esta industria, también proveemos componentes a casi todos los fabricantes de equipos originales en todo el mundo. Durante décadas, hemos ayudado a todos nuestros clientes a convertirse en gigantes dentro de sus industrias.

Calidad insuperable

En DENSO sabemos que una de las claves principales del éxito para nuestra compañía y nuestros clientes es el compromiso inquebrantable con la calidad. Nos esforzamos y logramos que no haya defectos en las partes fabricadas de a millones en las instalaciones de DENSO certificadas bajo las normas TS16949, ISO9000 e ISO14000. Esta dedicación a la calidad es claramente reconocida por la industria, dado que DENSO ha recibido premios prestigiosos, como el premio Deming (Deming Award) por calidad, el premio del Presidente de J.D. Power and Associates (J.D. Power and Associates Chairman's Award) y numerosos premios de proveedores por la calidad, otorgados por empresas como Toyota, Lexus, General Motors y Chrysler.

Todo en el mercado de posventa

En la década de 1980, DENSO se convirtió en el primero en producir en serie la bujía de encendido de platino y ofrecerla en el mercado de posventa. Una década más tarde, presentamos la bujía de encendido más avanzada del mundo, la Iridium Power® la cual revolucionó el concepto de bujía de rendimiento en el mercado de posventa.

A fines de la década de 1990, el mundo observó con un gran interés cómo DENSO anunciaba una línea de componentes de reemplazo estándar de equipos originales de calidad superior bajo la marca First Time Fit®. Actualmente, la línea de productos First Time Fit incluye: compresores de AA, filtros de aire de cabina, condensadores, evaporadores, radiadores, receptores secadores, dispositivos de expansión, arrancadores, alternadores, sensores de oxígeno, bombas de combustible, filtros de aceite y de aire, juegos de cables de encendido, sensor del sistema de control de presión

DENSO es uno de los proveedores de componentes de la industria automotriz más grandes a nivel mundial con más de \$40.2 mil millones de ventas anuales.

de los neumáticos, sensores de administración del motor y escobillas limpiaparabrisas.

Mejor por su diseño

ESCOBILLAS LIMPIAPARABRISAS FIRST TIME FIT® DE DENSO QUE FUNCIONAN Y PROTEGEN PARA SATISFACER LAS NECESIDADES DE LOS CLIENTES

Ninguna marca de la competencia ha diseñado o fabricado escobillas tan innovadoras como las escobillas limpiaparabrisas DENSO.

Las escobillas limpiaparabrisas **First Time Fit® de DENSO** de estilo convencional, de diseñador, y con muelle incorporado, son fabricadas y puestas a prueba bajo las normas más estrictas para los equipos originales (OE) con el propósito de ofrecerle un rendimiento sin igual.

Cada escobilla limpiaparabrisas cuenta con una construcción innovadora que brinda durabilidad, rendimiento superior y un recambio exacto. Estas son solo algunas de las razones por las que DENSO es el proveedor principal de escobillas limpiaparabrisas de muchos fabricantes de equipos originales en todo el mundo.

A QUIÉNES SUMINISTRA DENSO:

ChryslerDodgeGMHondaHyundaiSuzukiToyota

¿POR QUÉ LAS ESCOBILLAS LIMPIAPARABRISAS FIRST TIME FIT® DE DENSO SON SUPERIORES?

- Diseño y especificaciones de fabricantes de equipos originales (OEM) para un calce y funcionamiento óptimos
- Diseño duradero
 Instalación rápida y fácil
 Funcionamiento silencioso y libre de rayas

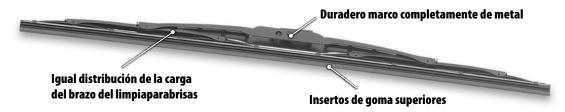

Proceso de cortado de goma superior: otros proveedores utilizan escobillas cortadas con guillotina, que vibran y dejan rayas. El borde de contacto de nuestra escobilla limpiaparabrisas se forma por medio de un proceso de corte con doble filo, lo que brinda dos bordes de barrido precisos de 90 grados que deja el borde de la escobilla limpio, por lo que no rayan ni vibran.

Diseño único de fabricantes de equipos originales (OEM) de bajo perfil: las escobillas limpiaparabrisas FTF de DENSO están diseñadas con la eliminación de varillas secundarias, lo que reduce la altura de la escobilla y hace que mantenga un bajo nivel de proyección en el parabrisas. El diseño de bajo perfil reduce la resistencia al viento.

Goma cubierta con grafito y cubierta de plástico: nuestra goma cubierta con grafito brinda una mejor durabilidad para una mayor vida útil de la escobilla. Nuestra cubierta brinda una apariencia elegante y aerodinámica de la escobilla y un diseño que protege contra la flotación por el viento.

- Primera en el mercado con este diseño híbrido único
- Tamaños disponibles: desde 14" hasta 28"

ESCOBILLA LIMPIAPARABRISAS CONVENCIONAL — Sin rayas ni vibraciones

Proceso de cortado de goma superior: otros proveedores utilizan escobillas cortadas con guillotina, que vibran y dejan rayas. El borde de contacto de nuestra escobilla limpiaparabrisas se forma por medio de un proceso de corte con doble filo, lo que brinda dos bordes de barrido precisos de 90 grados que deja el borde de la escobilla limpio, por lo que no rayan ni vibran.

Puntos de contacto: las escobillas limpiaparabrisas First Time Fit® de DENSO poseen una distribución equilibrada de la carga del brazo del limpiaparabrisas, lo que brinda un barrido uniforme y sin rayas en todos los parabrisas.

Inserto de goma natural de alta compresión: nuestras escobillas limpiaparabrisas poseen goma natural formada por compresión que protege y resiste los elementos, como la exposición a la luz y la humedad, mejor que escobillas de goma sintética de la competencia.

• Tamaños disponibles: desde 12" hasta 28"

ESCOBILLA LIMPIAPARABRISAS CON MUELLE INCORPORADO

Nuevo estándar en rendimiento

Tecnología de barrido revolucionaria: las escobillas limpiaparabrisas First Time Fit® de DENSO brindan una presión continua con más de 1,500 puntos de presión en su parabrisas, lo que hace de esta la mejor tecnología de escobillas limpiaparabrisas disponible.

Tecnología de goma avanzada: nuestras escobillas limpiaparabrisas están diseñadas con compuestos de goma avanzados, como el borde de barrido de goma natural, cuerpo de goma sintética y una cubierta protectora que hace que esta escobilla sea la más resistente al clima.

Alerón antiflotación integrado: nuestras escobillas limpiaparabrisas poseen un contacto óptimo, forzado por la presión del viento.

• Tamaños disponibles: desde 15" hasta 28"

Las escobillas limpiaparabrisas First Time Fit[®] de DENSO brindan lo máximo en rendimiento y son la clara opción para el reemplazo de OE. Su construcción sólida y su rendimiento resistente a las condiciones climáticas las convierte en una asombrosa versión mejorada de cualquier otra escobilla del mercado de posventa.

ESCOBILLAS LIMPIAPARABRISAS TRASERAS

Características y beneficios:

- Escobilla de estilo OE para un calce perfecto en su vehículo
- El inserto de perfil bajo mejora el contacto en el parabrisas, lo que minimiza la probabilidad de formación de rayas
- Goma cubierta con grafito para una mayor vida útil de la escobilla
- Escobilla liviana y de resina duradera que se adapta al brazo del limpiaparabrisas del vehículo

DENSO le ofrece la parte y el ajuste correcto . . . desde el primer momento

No se conforme con menos . . . Pida las escobillas limpiaparabrisas First Time Fit de DENSO.

Escobilla limpiaparabrisas trasera - Roc Lock2

△PRECAUCIÓN: Este producto está hecho de RESINA. Evite aplicar fuerza excesiva y utilice con cuidado durante la extracción e instalación.

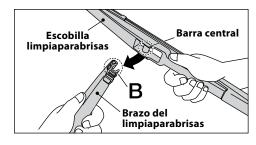

Instrucciones de extracción

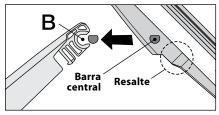

1. Eleve el brazo del limpiaparabrisas.

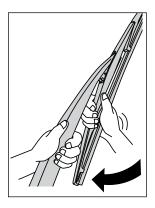

Instrucciones de instalación

1. Inserte la barra central dentro de la punta del brazo del limpiaparabrisas, "B".

- 2. Coloque la escobilla de manera que el resalte quede ubicado en la parte inferior de la barra central.
- 3. Gire la escobilla al ángulo adecuado para que la barra central pueda insertarse en "B" sin dificultades.
- 4. Inserte la escobilla por completo, luego:
 - a. Gire la escobilla como se muestra.
 - b. Verifique que la escobilla esté correctamente fija con el brazo del limpiaparabrisas.

CARACTERÍSTICAS Y BENEFICIOS

- La revolucionaria combinación de rendimiento y valor de las escobillas de limpiaparabrisas EnduroVision es única en el mercado.
- Durable estructura de acero con refuerzo de acero inoxidable, que proporciona un funcionamiento efectivo de larga duración. El recubrimiento de pintura en polvo protege la estructura contra los rayos ultravioleta y la corrosión.
- Los soportes de acero proporcionan una presión uniforme en toda la escobilla, para impedir la trepidación y el estriado.
- El inserto de caucho natural proporciona un funcionamiento suave, silencioso y libre de estriado.
- Conector universal: disponible en tipos gancho de 9x3 y 9x4, clavija de 3/16" y 1/4", y bayoneta.
- Las escobillas EnduroVision, que se ofrecen en tamaños de 12–28 pulgadas, cubren sus necesidades de escobillas de limpiaparabrisas convencionales.
